

House Democrats' Vision for Renewing Faith in Government

- *Campaign Finance Reform*
- *Restore & Protect Voting Rights*
- *Reform the Congressional Redistricting Process*
- *Develop a Technologically Modern System of Civic Engagement*

Campaign Finance Reform

- Overturn the Citizens United decision and require Super PACs to disclose their donors.
- Place reasonable limits on the amount one can donate to campaigns and encourage small contribution funding.
- Restore complete transparency to the fundraising process.

Restore & Protect Voting Rights

- Modernize our voting system through efforts such as automatic voter registration, expanded early voting, options to vote by mail and on weekends, and establish tools to combat voter suppression.
- Restore the Voting Rights Act.

Reform the Congressional Redistricting Process

- Establish national redistricting standards that take partisanship out of the equation when drawing Congressional district boundaries.

Develop a Technologically Modern System of Civic Engagement

- Modernize government technology systems so that they are efficient and effective.
- Make sure that federal departments and agencies are connected and adaptive, and that they are protected against cyber threats.
- Launch an Information Technology Modernization Fund to upgrade government technology and strengthen cybersecurity.
